This Vehicle's Glossary

Below are the specific definitions for events that appear in this vehicle's report. More information is available in the full AutoCheck glossary.

Term	Section Location	Definition
Auction Junk/Salvaged	Damage Check	Treated as or named a salvaged title in some states, a junk title is issued when a vehicle is determined to be unsafe for road use. Though dependent on your state of residence, it is common for a vehicle to be branded with a junk title if the cost to repair damages exceeds 75% of the vehicle's worth. Once branded as junk, the title cannot be changed or reissued with a new designation . These records were reported by the auction or salvage auction or when the sellers disclosed or the auction discovered junk/salvage title from the DMV and/or insurance company records.
Major Damage Incident	Damage Check	When a (i) State agency or third party reported an event that did or may have resulted in vehicle frame or mechanical damage, such as a collision or incident such as vandalism or theft, or (ii) a third party reported that an inspection indicates that a vehicle appears to have sustained frame or other damage. Not all damage events are reported to AutoCheck and the damage severity of reported events will vary.

In all events AutoCheck recommends that prospective vehicle purchasers conduct a detailed vehicle inspection prior to purchase of a pre-owned vehicle.

Insurance Total Loss	Other Title Brand and Specific Event Check	Insurance companies label a vehicle a "total loss" when the cost to repair the vehicle to its pre-damaged state exceeds the cost of the vehicle's worth, or actual cash value. Insurance companies must follow certain state law (defined percentage of damage before it can be deemed a total loss) and they also can set their own standards for totaled vehicles.
Loan/Lien	Other Title Brand and Specific Event Check	A loan/lien is the legal right to take and hold or sell the vehicle of a debtor as security or payment for a debt. Normally, a vehicle will have a lien due to a loan or unpaid repair bill against the vehicle. Check with the seller to ensure that the lien has been satisfied.
Rental Use	Vehicle Use	The vehicle has been reported as used as a rental vehicle.
Open Recall	History Section	A recall is considered 'open' for a vehicle when it has not received the required service to correct the safety concern. The vehicle will need to be taken to a repair center that has been authorized by the manufacturer to correct any open recall conditions. Portions of this report have been included under license from Toyota Motor North America, Inc. ('Toyota'), Mutual Data License Agreement- TMS1014. This data applies only to vehicles marketed or originally sold in the United States of America, including Guam, Puerto Rico, and the U.S. Virgin Islands, and Mexico with currently open safety or emissions recalls, or service campaigns. While Toyota provides data to Experian on a regular basis, this report may not include very recent activity. For the manufacturer's most current information on recall activity for any Toyota, Lexus or Scion vehicle, you must go to http://toyota.com/recall or http://lexus.com/recall .
Recall	History Section	A safety, emission or bulletin issued by the vehicle manufacturer, the Environmental Protection Agency (EPA) or the Department of Transportation (DOT). These are different than a service bulletin. A recall involves work that must be done at no charge to the consumer by an authorized dealer of the vehicle make involved.
